Summary

Fresh graduate from Asia Pacific University, Malaysia, with a bachelor's degree in computer science majoring in Cyber Security. I am interested in software development using PHP Laravel, JavaScript, and Go, and currently deepening back-end engineering skills through a Golang Back-End Bootcamp at Dibimbing.id, focusing on RESTful API development, MySQL, and clean architecture. Passionate about building secure, scalable, and efficient back-end systems, and ready to contribute to development teams by combining cybersecurity expertise with robust back-end solutions using Golang.

Skills

- Hard Skills: Golang, PHP (Laravel) Python, Express, MySQL, Figma, Kali Linux, Security Tools (Wireshark, Burp Suite, CTF)
- Soft Skills: Communication, Teamwork
- Language: Indonesian (Native), English (Professional), Mandarin (basic)

Working Experience

DB Click (Surabaya, Indonesia)

Full-stack Developer intern (April-now)

- Developed product portal applications using Laravel.

PT. Mazabuta Group (Surabaya, Indonesia)
